

## Lecture 01 UX

- User experience (UX)
- Usability Factors
- Types of Usability Evaluations

## Lecture 02 Design Walkthrough

### Heuristic evaluation

- Nielsen's Heuristics
  - Background
  - Principle
- Personas, Fitts' Law, The Human
  - Conceptual Design – User Personas
  - Conceptual Design – Scenarios
  - Summary

### Fitts' Law

- ( $T$ ) Fitts' Law is the classic performance measure.
- ( $ID$ ) The  $\log_2$  component is the Index of Difficulty
- Hick–Hyman Law
- Fitts' Law VS Hick-Hyman Law

## Week 03 Contextual Inquiry

- Data Elicitation
  - Conduct a field visit to the customer.
  - Requirements collection processes
    - Collection – Elicitation Direct Interviews/ Focus Groups/ Indirect – Questionnaires:
- Data Analysis: Affinity Diagrams
- Ideation and Sketching
  - Generative design

## Lecture 04 Visual design

- Gestalt Principles of Perception
  - Gestalt perception is seen as based in a set of principles:
  - Design Principles
    - Balance
    - Emphasis
    - Unity

### Interaction Design

- Storyboards
- Design considerations:

## Week 05 Prototyping with

High Fidelity Prototyping  
Inclusive design  
Universal/Assistive/Accessible/Usable

## Week 06

Colour  
and Colour model  
Hue: Colour wheel  
Colour Schemes: Analogous (类比色) & Complimentary (互补色)  
Analogous 相似的  
Web Technology for Prototypes  
The Web client side technology core  
Web Resource  
Example Stylesheet W3.CSS  
Color Web  
Remarks on Semantic HTML  
Dynamic UI Implementation

## Vocab

### Lecture 01 UX

User experience (UX)  
Usability Factors  
Types of Usability Evaluations

### Lecture 02 Design Walkthrough

Nielsen's Heuristics  
Background  
Principle  
Personas, Fitts' Law, The Human  
Conceptual Design – User Personas  
Conceptual Design – Scenarios  
Summary

( $T$ ) Fitts' Law is the classic performance measure.  
( $ID$ ) The  $\log_2$  component is the Index of Difficulty  
Hick-Hyman Law  
Fitts' Law VS Hick-Hyman Law

## Week 03 Contextual Inquiry

Data Elicitation

Conduct a field visit to the customer.

Requirements collection processes

Collection – Elicitation Direct Interviews/ Focus Groups/ Indirect – Questionnaires:

Data Analysis: Affinity Diagrams

Ideation and Sketching

Generative design

## **Lecture 04 Visual design**

Gestalt Principles of Perception

Gestalt perception is seen as based in a set of principles:

Design Principles

Balance

Emphasis

Unity

Interaction Design

Storyboards

Design considerations:

## **Week 05 Prototyping with**

High Fidelity Prototyping

Inclusive design

Universal/Assistive/Accessible/Usable

## **Week 06**

Colour

and Colour model

Hue: Colour wheel

Colour Schemes: Analogous (类比色) & Complimentary (互补色)

Analogous 相似的

Web Technology for Prototypes

The Web client side technology core

Web Resource

Example Stylesheet W3.CSS

Color Web

Remarks on Semantic HTML

Dynamic UI Implementation
